6/9/2011

BAN THE FOAM: SIGN THE PETITION!

Please tell your State Senator to support SB 568, a bill to clean up our beaches and support sustainable foodware products by prohibiting the distribution and use of foam containers by food vendors.

Plastics, especially styrofoam, easily break into small pieces which are difficult to clean up off our beaches. It is consumed by wildlife and has also been linked to toxins and carcinogens which can leach out from the product. In order

to protect our California coastal resources from this rampant form of plastic litter our Rise Above Plastics program is prioritizing this bill in 2011 and Surfrider Foundation is a co-sponsor. In order to make it move in the Capitol, we need grassroots support from members like you!

Our California coasts are valuable drivers of a tourism industry worth billions of dollars and thousands of jobs in our state. It is important to have sound policies to keep our beaches clean and maintain healthy ecosystems. In fact, 47 local jurisdictions in California have already seen the importance of this action and banned polystyrene foam take out ware. Please let your local Senator know you support this legislation and a ban on styrofoam statewide!

BAN THE FOAM: SIGN THE PETITION!

6/12
2011

Please tell your State Senator to support SB 568, a bill to clean up our beaches and support sustainable foodware products by prohibiting the distribution and use of foam containers by food vendors.

Plastics, especially styrofoam, easily break into small pieces which are difficult to clean up off our beaches. It is consumed by wildlife and has also been linked to toxins and carcinogens which can leach out from the product. In order

to protect our California coastal resources from this rampant form of plastic litter our Rise Above Plastics program is prioritizing this bill in 2011 and Surfrider Foundation is a co-sponsor. In order to make it move in the Capitol, we need grassroots support from members like you!

Our California coasts are valuable drivers of a tourism industry worth billions of dollars and thousands of jobs in our state. It is important to have sound policies to keep our beaches clean and maintain healthy ecosystems. In fact, 47 local jurisdictions in California have already seen the importance of this action and banned polystyrene foam take out ware. Please let your local Senator know you support this legislation and a ban on styrofoam statewide!

BAN THE FOAM: SIGN THE PETITION!

Dana Point CA

Please tell your State Senator to support SB 568, a bill to clean up our beaches and support sustainable foodware products by prohibiting the distribution and use of foam containers by food vendors.

To protect our California coastal resources from this rampant form of plastic litter our Rise Above Plastics program is prioritizing this bill in 2011 and Surfrider Foundation is a co-sponsor. In order to make it move in the Capitol, we need grassroots support from members like you!

Our California coasts are valuable drivers of a tourism industry worth billions of dollars and thousands of jobs in our state. It is important to have sound policies to keep our beaches clean and maintain healthy ecosystems. In fact, 47 local jurisdictions in California have already seen the importance of this action and banned polystyrene foam take out ware. Please let your local Senator know you support this legislation and a ban on styrofoam statewide!

Plastics, especially styrofoam, easily break into small pieces which are difficult to clean up off our beaches. It is consumed by wildlife and has also been linked to toxins and carcinogens which can leach out from the product. In order

PLASTICS REDUCTION PLEDGE

In order to help heal the ocean and marine environment, I pledge to rely less on plastic containers, bags and single use plastic water bottles and to use re-usable bags for shopping and refillable water bottles!

BAN THE FOAM: SIGN THE PETITION!

Doherty
Days
9/10/2011

Please tell your State Senator to support **SB 568**, a bill to clean up our beaches and support sustainable foodware products by prohibiting the distribution and use of foam containers by food vendors.

Plastics, especially styrofoam, easily break into small pieces which are difficult to clean up off our beaches. It is consumed by wildlife and has also been linked to toxins and carcinogens which can leach out from the product. In order

to protect our California coastal resources from this rampant form of plastic litter our Rise Above Plastics program is prioritizing this bill in 2011 and Surfrider Foundation is a co-sponsor. In order to make it move in the Capitol, we need grassroots support from members like you!

Our California coasts are valuable drivers of a tourism industry worth billions of dollars and thousands of jobs in our state. It is important to have sound policies to keep our beaches clean and maintain healthy ecosystems. In fact, 47 local jurisdictions in California have already seen the importance of this action and banned polystyrene foam take out ware. Please let your local Senator know you support this legislation and a ban on styrofoam statewide!
