Please join us for an exciting presentation by Mountain Lion Foundation’s Executive Director, Lynn Cullens!

As Executive Director, Lynn leads the organization's fight to end trophy hunting in 14 states and to reduce the number of mountain lions killed as a result of depredation, poisons, traffic, poaching, and habitat loss.

This will be a great opportunity to learn about these large carnivores that can be found throughout the state of California and how we can help protect this important apex predator!
