

## **“BEE’S EYE VIEW”**

### DESCRIPTION

Cliff Wassmann ([www.artseek.com](http://www.artseek.com)) is a graphic artist and photographer who designed and painted “Bee’s Eye View” which was initially an 8’ x 50’ temporary mural that took approximately a month to paint and has been viewed by over 3 million people since it was painted on a wall outside the Sawdust Art Festival in Laguna Beach. This colorful theme which shows California poppies, honeybees and painted lady butterflies represents the South Orange County springtime experience during a superbloom, when enough rain falls to set the hills alive with color.

### ARTIST

Cliff Wassmann

### LOCATION

[Pacific Coast Highway and Violet Lantern](#)
