

“Arches Over the Ocean”

ARTIST

Ashley Keene

DESCRIPTION

The artwork submitted, “Arches Over the Ocean” is paying homage to the history of Dana Point as well as utilizing bright colors that represent some of the most beautiful sunsets I have witnessed from the very location featured in this artwork. The bright colors and historical significance are elements that will both enliven the surrounding area and resonate with the residents of Dana Point.

Local beach landscapes are often included in her work as they come with such a natural desire to paint these beautiful spots around our city. Because of this, she is always looking for local and public projects to be involved with.
